

Market Drayton Neighbourhood Plan

The September issue of the Messenger carried an article on the Neighbourhood Plan (pages 3 & 4). It summarised the main points of the most recent draft at the time of going to press and highlighted the areas within the Plan boundary which might be developed or re-developed. The Town Council approved the final version of the draft Plan in late September. There then followed a 6 week public consultation period which expired on 21st November. Every response received during that time will be considered by the Steering Group and the Plan revised in the light of these responses.

After the September issue of the Messenger went to press a further policy was added (S.M9). This referred to land adjacent to Market Drayton Swimming Pool. "Land adjacent to Market Drayton Swimming Pool will be improved in order to increase its use as a multi-functional area for recreation, sports and cultural uses"

Ultimately a local referendum will be held to approve (or not) the Plan. The result must show a majority vote in favour of its proposals. If the referendum results in 50% + 1 approval of those voting, it will be forwarded for formal acceptance by Shropshire council, which is the Local Planning Authority for Market Drayton.

The Steering Group meets again on Wednesday 7th December to consider the redrafted version in the light of responses to the 6 week public consultation.
