

Community and Governance Committee Meeting

Agenda Item: 6.CG Proposed Pedestrian Improvement Scheme Consultation

Date: 29 September 2022

Appendix : CG59

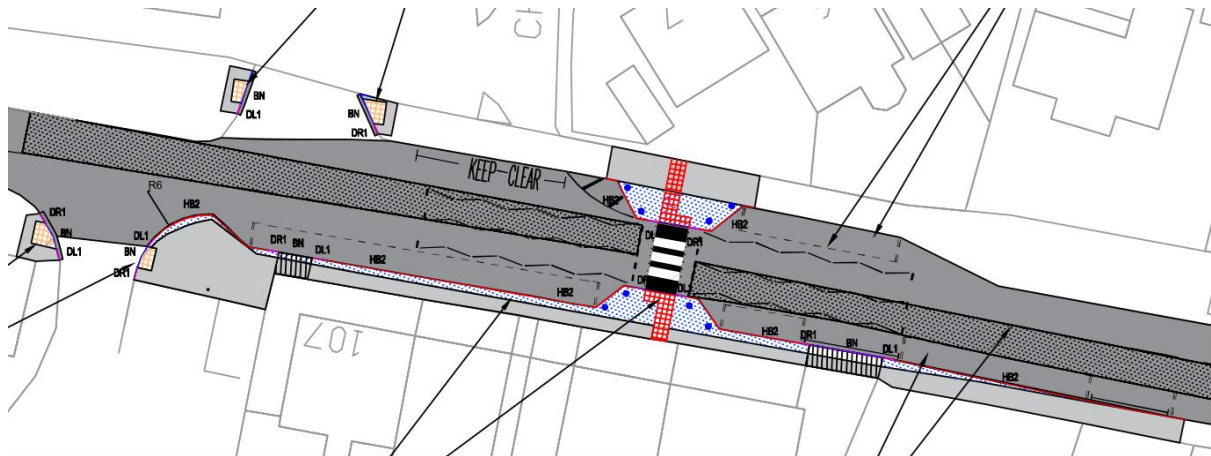

Market Drayton
Town Council

RE: Proposed Pedestrian Improvement Scheme.

Shropshire Council are proposing to introduce a pedestrian improvement scheme on the A529 Cheshire Street as part of the DfT (Department for Traffic) A529 Safer Roads Fund.

An excerpt of these measures is shown below and can be viewed at full scale on the Shropshire Council webpage,

www.shropshire.gov.uk/CheshireStreetPedestrianImprovementScheme.

The proposed scheme is for a zebra crossing with built-out footway located between 101 Cheshire Street and 7 Cheshire Gardens. This is designed to provide a safe pedestrian crossing point between Maer Lane and Frogmore Road. The southern footway, which is currently a sub-standard width, will be widened to approximately 1.7m making it safer for pedestrian use. To facilitate these pedestrian improvements the capacity of the parking bays (south side) will need to reduce slightly, and the existing bus layby (north side) will be removed.

For Consideration

To consider a response to the Proposed Pedestrian Improvement scheme on Cheshire Street consultation.
