Grove School Community Steering group - Met 27th January.

Main area of discussion was focusing on and into 2025 and reinforcing the groups actions with the main aim being to cement a positive outlook of the Grove School within the Market Drayton Community. Next meeting 3rd March

Market Drayton Community Covenant otherwise known as the Community Power Act - Met 22nd January & 12th February.

In essence the concept is to give communities more control over their spaces, services and spending decisions which shape their places and futures, through a Community Power Act.

The group has generated a memorandum of understanding. At the next meeting the group will be focussing on its launch project, the creation of a Community and Family Hub; the exact details of the hub are to be finalised.

Active Market Drayton - Met on 23rd January & 14th February.

The group which is focussing on the redevelopment of the Greenfields sport site including facilities at the Grove School is making good progress. Agreement has been reached on the best option to move forward; clubs have been consulted and are generally in agreement with the proposals.

Funding of course will be one of the biggest hurdles hence the funding/business model is being worked on now.

The reality is the project will be at a significant cost but when successful will see sports provision in Market Drayton become some of the best in North Shropshire

There is a soft launch of the redevelopment proposals being presented on Wednesday 26th to invited groups, individuals and the media.
